

# Remote Deposition Best Practices with HusebyConnect

*HusebyConnect provides counsel a complete deposition experience in a virtual environment, allowing you to attend a deposition anywhere in the world from the comfort of your office.*

## ***Checking Your Equipment in Advance***

- (1) Ensure you have an internet connection.
- (2) Test your computer to make sure all apps are up-to-date and your internet bandwidth is sufficient for video and exhibit presentation. Click here for your testing link or email [info@huseby.com](mailto:info@huseby.com).
- (3) Send this test link to the deponent to test their system. The deponent will be asked to submit a testing confirmation form at the end of the test. They can also request assistance through this link.

## ***Joining Your Web Conference***

- (4) Connect a few minutes early to allow time for setup of your screen view, attend to any additional exhibit uploads/organization, or to ask any questions to the Huseby Support team.
- (5) Join the audio through the phone if possible, instead of your computer's microphone. This allows for a redundancy/backup in case you happen to temporarily lose your internet feed.
- (6) Find the mute icon, so you know how to mute your audio if needed.
- (7) Adjust your webcam so others can see you.

## ***Keep in Mind...***

- (8) Introduce yourself at arrival so the court reporter has an accurate record for the appearance page.
- (9) Try not to talk over one another. Set ground rules at the beginning of the deposition and ask the deponent to allow you to finish asking questions before answering and you will provide them the same courtesy to finish answering before asking another question.
- (10) Follow the same flow you would normally have in an in-person deposition.
